

## Featured Agency of the Month! Davis Street Family Resource Center

June 2017

For more than 46 years Davis Street has provided critically needed services to low-income, uninsured, and working poor families. Beginning as a ministry of the First Christian Church, Davis Street has evolved into the only multi-service agency in San Leandro and the Eden Area providing a comprehensive range of services for families and seniors.

The Alternative Payment Program provides care to 542 Children daily through its Stage 2, Stage 3 and CAPP Contracts. In addition to APP, Davis Street operates 5 licensed childcare centers throughout San Leandro, caring for more than 300 children daily in both our Private Pay and subsidized CSPP/CCTR child care programs. We will soon be opening a 6th center housed at the Marea Alta Housing development - a 115 unit new construction affordable housing complex built near San Leandro BART with an anticipated enrollment of 64 preschool child care slots.

As a comprehensive safety net provider Davis Street has focused on expanding its range of services, most recently completing construction a Primary Care Medical Clinic. The clinic is a state of the art, licensed, Federally Qualified Health Center (FQHC) providing integrated Medical, Dental and Behavioral Health Services to our community. Last year the Primary Care Clinic had 6,435 patient encounters. The clinic also provides immunizations and dental screenings for low-income children entering school.

At the core of our organization is the Basic Needs program. Basic Needs provides safety net services to nearly 15,000 low-income individuals each year and is often the point of entry for many of the families we serve. Services include: Food pantry providing more than 32,000 bags of groceries each year; clothing program; housing and utility assistance, Covered California insurance enrollments.

Davis Street also has a number of annual events and programs to help meet the needs of the community and support the families it serves:

- \* **3rd Annual Health Fair, August 12** - will provide free health screenings, immunizations and dental screenings for children entering school. The community event also features more than 30 community resource booths and linkages to other organizations and resources throughout the area.
- \* **Back to School Program** - providing low-income children with a new backpack and school supplies.
- \* **Holiday Food Basket and Toy Program** each year provides more than 1,000 families and seniors with a complete holiday meal and new unwrapped age appropriate toys for children. The food basket includes a fresh turkey, stuffing and vegetables for a complete holiday meal.
