

DAVIS STREET COMMUNITY CENTER

MISSION

Davis Street is nonprofit organization dedicated to improving the quality of life for low-income residents in the Eden Area and surrounding communities. Since its founding in 1972, Davis Street has made great strides in its mission to empower individuals and families by providing integrated service that enable clients to help themselves. By offering a comprehensive range of essential services all in house, Davis Street serves as a vital resource for those in need from medical care to child care to food and clothing.

INTEGRATION OF SERVICES

By offering a variety of support services in a single location, Davis Street makes it easier for individuals to access the resources they need, when they need them. This unique model has allowed Davis Street to build a strong reputation for its ability to make a lasting impact on people’s lives rather than just providing temporary relief. Davis Street remains committed to helping individuals and families break the cycle of poverty, and achieve the quality of life they aspire.

CHILDREN’S SERVICES

Children’s Services is committed to eliminating the stress and financial burden of finding and affording quality childcare, offering two essential programs that support families in their childcare needs. Our **Alternative Payment Program (APP)** is a voucher-based, parental choice program that provides families with the flexibility to select the childcare option that best fits their needs while offering financial relief.

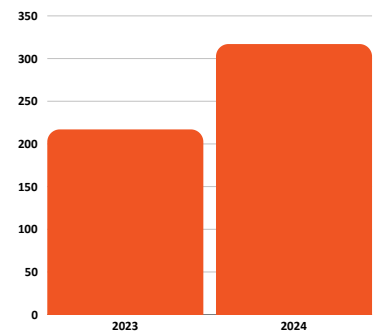

Additionally, our **Child Development Centers (CDC)** provide affordable, high-quality child care for families seeking a nurturing and educational environment for their children.

As part of our ongoing commitment to meeting the evolving needs of our community, we continuously make improvements to better serve families. In 2024, our CDC expanded its minimum age requirement for enrollment to include children as young as 2 years old. Our APP program saw significant increase in enrollment from 2023 to 2024, growing by 14%, showcasing the rising demand for financial assistance.
