

2024 AT GLANCE

WHAT WE DO

Support

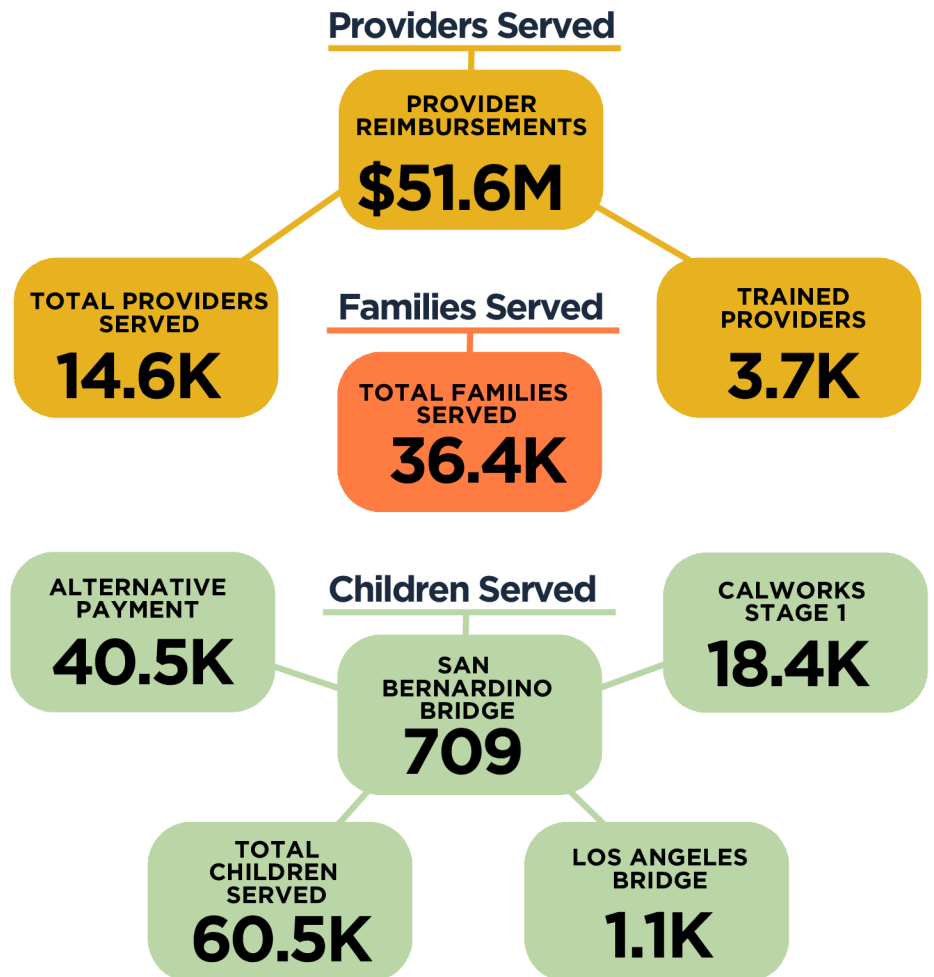

We support families in Los Angeles and San Bernardino counties by providing subsidized child care and training through programs like CalWORKS, the Emergency Child Care Bridge Program, and CAPP. These initiatives help families access affordable, quality care, fostering children's development and stability.

Empower

Through partnerships with local child care providers, we help fortify the child care sector, enabling providers to thrive and children to receive optimal care. Our training initiatives foster high-quality services, resulting in improved cognitive, social, and emotional outcomes for children.

COMMUNITY IMPACT

How You Can Make a Difference

We urge lobbyists and legislators to advocate for sustained funding for subsidized child care. By expanding access, supporting providers, and strengthening families, we can work together to improve community well-being and provide children with the foundation for lifelong success.
