Child Care Initiative Project (CCIP)

Special Funding

Between 2018 and 2020 California, allocated $4 million of one-time federal Child Care Development Fund (CCDF) carryover to the CCIP to address the state's child care shortage and improve the quality of care for infants and toddlers.

Support for FFNs

Monthly activities were provided for Family, Friend, and Neighbor (FFN) caregivers serving children receiving CCDF subsidies. CCIP provided 1,988 activities centered on health, safety, and child development.

Increased funding expanded access to healthy, safe, & enriching care for infants & toddlers!

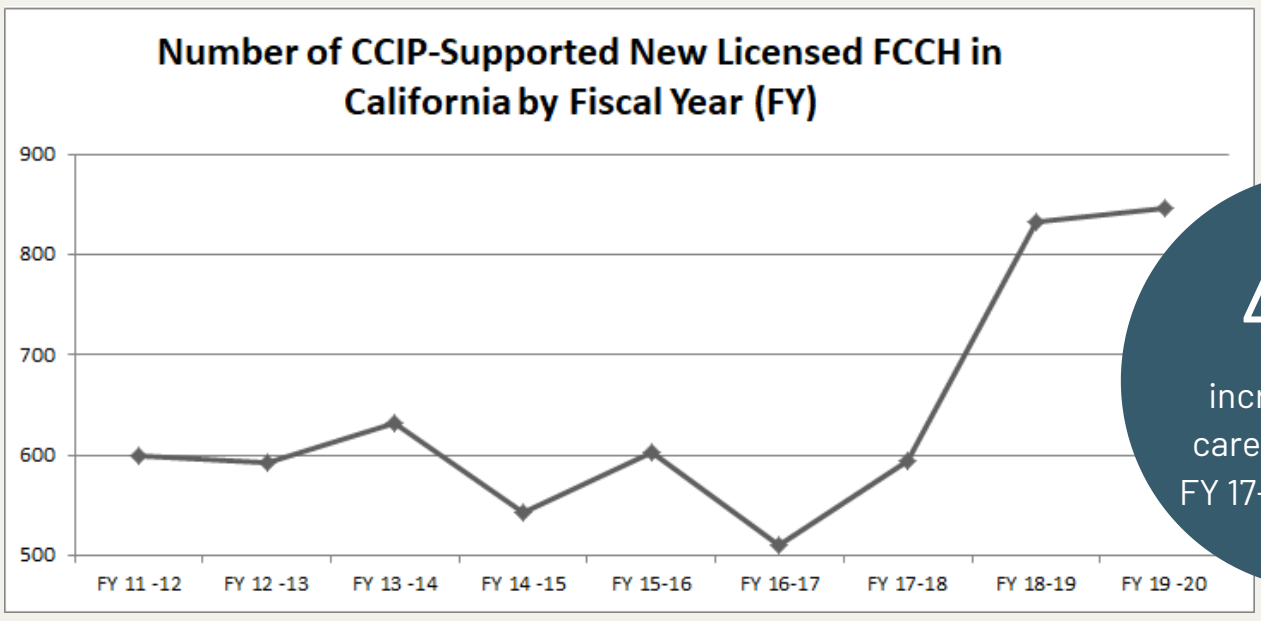
Start-up Costs

1,679 new licensed family child care home (FCCH) providers received up to $1K each in reimbursements for expenses required to start a FCCH, resulting in safer programs for infants and toddlers (e.g., fingerprinting, CPR/First Aid/PHP, fire extinguishers, smoke detectors, electrical outlet covers, baby gates, cribs).

Home Visits

3,275 home visits were conducted by friendly CCIP staff to provide guidance and support through the licensing process (Title 22). Additional technical assistance was offered to CCIP participants regarding child development, setting up the child care environment, health and safety, etc.

Additional Funding Boosts Child Care Spaces



43% increase in child care spaces from FY 17-18 to FY 19-20

Since July 1, 2018, 1,679 new Family Child Care Homes were created, resulting in 10,074 child care spaces, up to 50% of which are available for infants

Family, Friend, & Neighbor Caregivers

(CCIP participants July 1, 2018 - June 30, 2020)

1 out of 4
are CCIP-supported, new family child care providers

3 out of 5
providers care for a child with a child care subsidy
