The Early Learning & Child Care Webinar Series of 2018

Register for the Early Learning & Child Care Webinar Series Today!

CAPPA Children's Foundation, in partnership with MCT Technology, brings you an ALL NEW Series of trainings, all for one low price per center or program location. View the webinar series and be connected without ever leaving your location. This is a fabulous opportunity to train your staff on the most requested child care topics for 2018 at an affordable price in an incredibly convenient format.

Reserve your spot now!

About the Webinar Series

After querying the child care field and receiving your feedback, CAPPA Children's Foundation has created a relevant webinar series designed with all early childhood educators in mind. A few of the topics this 2018 webinar series will cover include:

- ***Curriculum Development for Early Childhood Education***
- ***How to Combat Provider Stress and Burnout***
- ***Sensory Regulation Strategies to Promote Behavior Management***
- ***The Family Factor: A Community View to Father Engagement***
- ***Team Building Activities to Motivate Early Educators***

Here's How it Works

During the last week of every month in 2018, a webinar CD will be sent to each participating organization. You can set it up in a conference room and have all your staff view the 60 minute webinar presentation, or you can add it to your training library and have staff check out the CD. Each participant will also receive any accompanying handouts for note taking as well as a certificate that may be used for professional growth hours.

How To Register

The series is only \$900 for an entire year of monthly webinars (purchase 9, get 3 for FREE) or \$99/location for each individual webinar. Simply register for the entire series for the special discounted rate or register for the individual webinar of your choice. Just fill out the last page of this brochure and fax in to 916-567-6790 or email it to cappa@cappaonline.com. If there are additional staff who will be viewing from your location, just simply email those names and emails to cappa@cappaonline.com, and we will get them registered as well and make sure they receive the handouts.

CAPPA Children's Foundation Presents

The Early Learning & Child Care Webinar Series of 2018

Curriculum Development for Early Childhood Education

Jamie Apostol, M.A., Faculty CSULB Departments of Child Development & Family Studies and Human Development

During this webinar, you will learn how to equip, plan, and implement a developmentally appropriate curriculum and learning environment for young children. Explore techniques for practicing positive guidance, planning successful group experiences, and facilitating cultural diversity within the classroom setting. Emphasis is on developing a child-centered, integrated, and developmentally appropriate curriculum for the early years. A variety of curricular approaches will be modeled and assessed.

January 2018

Self-Care is Not Selfish

Maria Brown, Mental Health Counselor

In the work that we do as providers, we give our emotional selves each day at a cost of increase stress and mental anguish. It is important that we provide care to our emotional self to continue our service to the community in which we serve. In this webinar, we will learn the difference between compassion fatigue and burnout. We will learn how to improve our emotional being through daily practice of self-care and mindfulness.

February 2018

The Family Factor: A Community View to Father Engagement

Justin Margolis, Butte Parent Café Coordinator, Valley Oak Children's Services

Daniel Polanco, D.A.D. Project

This webinar will focus on ways to encourage, engage, support and successfully maintain a father engagement program. Whether a father is incarcerated, absent or with his family, father engagement is a vital component to the success of father and child. Through father support and engagement, families are strengthened, children thrive and dads are a greater centerpiece for success and happiness in their own lives and the lives of their children.

March 2018

Sensory Regulation Strategies to Promote Behavior Management

Brittnee Walsh, M.A., Early Childhood Special Educator and Itinerant Support, Glankler Early Learning Center

In our increasingly fast paced, noisy, and highly stimulating world, it is important for childcare providers to understand the importance of sensory regulation and to be able to identify children who may benefit from sensory integration techniques or accommodations. This webinar will define the various aspects of sensory processing and will shed light on the importance of children's sensorimotor regulation on their behavior and learning. Attendees will gain insight and strategies for managing classroom environments and student behaviors to promote students' developing sensorimotor skills, self-regulation, and emotion control.

April 2018

Conflict Resolution in the Classroom– What it really means and what it looks like

Gerri Hofstetter, Owner, Learning to Leap Child Development Center

Many young children have problems sharing, taking turns, and negotiating roles when they play together. These day-to-day conflicts are great opportunities for child care providers to help children practice the skills needed to resolve disagreements. During this webinar, we will discuss that when adults are thoughtful and skilled in their approach to classroom conflict, children benefit. Conflict resolution is an important foundation for future growth and learning.

May 2018

Inclusion Strategies for Children with Exceptional Needs in the Classroom

Jacqui Banta, Program Director, Children's Resource & Referral of Santa Barbara County

Participants will learn effective strategies for use in the early childhood classroom for children who exhibit speech-language, sensory processing, and behavioral challenges due to developmental delays. Information regarding the identification of developmental delays and resources available will be shared as well as communicating effectively with parents to assist them with supporting their children's needs.

June 2018

CAPPA Children's Foundation Presents

The Early Learning & Child Care Webinar Series of 2018

The Importance of Community Organizing and Advocacy

Susan Roll, Associate Professor of Social Work & Director of Civic Engagement, California State University, Chico

There is nothing more powerful than grassroots advocacy in the non-profit sector. Non-profits are valuable community hubs that often have greater impact than they realize. Learn how to maximize and utilize this impact through increasing your advocacy and community engagement efforts. Whether you are already involved in advocacy and would like to advance your efforts or if you are interested in beginning to engage in more advocacy efforts, this webinar will go over basic tenants of community organization and advocacy and help you utilize your unique niche to ensure that your voice is being collectively heard.

Strategies for Teaching Young Dual Language Learners

Carolyne Crolotte, Senior Policy Analyst, Early Edge California

The research base shows that attending to the social, emotional, and cognitive skills of dual language learners in early childhood enhances their schooling experiences. Instruction in oral language proficiency, vocabulary, and pre-literacy skills provides a strong foundation for later success. During this webinar, we will discuss why it is so crucial that educators understand how best to effectively support the home language so that early literacy can be fostered in the home as well as school.

Brain Development from Birth

Christine Roberts, Founder, Nurturing Pathways

Babies are born learning. The more they are held, nurtured, and stimulated by language, movement and play in the first three years of life, the better their brains will be for the rest of their lives. Eighty percent of the basic brain architecture is wired by age 3. During this webinar, we will discuss why a high-quality interactive relationship between a child and their early caregivers and teachers is vital to making the most out of this developmental phase.

Successful Classroom Management

Vicki Gibson, national educational consultant, author, and speaker, Gibson Hasbrouck & Associates

Early Educators know that when you're faced with a room full of children, clear expectations and routines are vital if teaching and learning are going to happen. Implementing classroom management techniques can be a challenge when you're dealing with high-energy kiddos. During this webinar, we will discuss the keys to classroom management in an early childhood setting.

Team Building Activities to Motivate Early Educators

Holly Elissa Bruno, educator, best selling author, international keynote speaker, online radio host

As an early childhood leader, motivating your staff is essential to ensure they feel valued and work as a cohesive team. During this webinar, we will discuss simple activities to add to your team building toolbox. Use them when running professional development sessions, at staff meetings or when inducting new teachers. These activities stimulate communication and foster working relationships, as educators collaborate, problem solve and laugh together.

Mental Health in Early Childhood

Ash Archambeau, Youth Program Director at Healthy Minds, Healthy Bodies Kids Programs

In this webinar, participants will gain an understanding of the relationship between Learning Disabilities and Mental Health issues. We will explore signs and indicators of anxiety and depression in order to know when to activate additional resources. We will also discuss strategies to support good mental health.
